

Vibrant America

Vibrant America is an out of network lab offering both traditional and innovative testing options in the areas of immune issues from allergies to autoimmune issues, cardiovascular disease, hormonal issues and woman's health. They also offer specialized testing for vitamin and nutrient deficiencies.

To specifically look at their testing of autoimmune markers please click the following:

Vibrant America will submit to your insurance and you may be responsible for a portion of your bill depending on your insurance plan. Please check with our Patient Advocate regarding their pricing. I have found their prices to be very reasonable. **We recommend calling** our representative, Briana, to make your payment at 908-208-6154.

Two of their tests require a prepay amount, the Gut Pathogens test which is a stool test analysis for parasites, yeast, and pathogenic bacteria; and the Micronutrient Analysis of Vitamin and Nutrient deficiency testing.

They also offer cash pricing for those who want preventative testing done or are uninsured.

[For more information about billing](#)

Vibrant America is in network with Medicare. All Vibrant America tests are covered if determined medically necessary, except for the Micronutrient Testing.
